### **Disc Golf:**

Is a rapidly growing sport played much like (and scored exactly like) traditional golf, only instead of hitting a ball into a hole, players throw discs (similar to a Frisbee) into elevated metal baskets. Discs of varying weights and thicknesses are used to shape different shots, much like the various clubs used in golf. As in 'ball' golf, the goal of disc golf is to complete the course with the fewest number of shots. There are 199+ courses in Missouri and nearly 7,000 in the U.S.

### **About Eagles Crossing:**

Eagles Crossing is a privately owned by Kathy and Philip Samuels. This Championship Disc Golf course is right up there among the best disc golf courses in the world, according to the experts. We invite you to take advantage of what we have made available so far and want to let you know there is plenty more to come. The decades of experience, countless hours of hard work and dedication from the Samuels' and their crew at Eagles Crossing are committed to providing an experience that you will thoroughly enjoy
